

I'm so grateful you are still going. I haven't had the time to be able to get my normal regimen of sachets, but I'm back on track and I'm so grateful these exist. -- Meghan

Hello Thomas, it worked miracles for my lungs and heart. For years I had serious health issues with my lungs and breathing while sleeping from all the years of smoking. All of that went away in just a few days. I am also going to be ordering more this week. Thank you for this miracle product. --- Carlos

Aug 24, 2024, 8:08 AM

I want to thank you for looking into my lost order and sending more out to me. I received it yesterday and was so relieved when I got hot home from work and found it had been delivered. You truly care about your customers and I greatly appreciate it. I started taking it this morning for my sinus condition. It truly has been a life saver to me over the years. Thanks again. ,JS

Knee Replacement Report March 11, 2024

Nicole just called on the phone to tell me her husband had a knee replacement 3 weeks ago. He is at home, up and walking around with a cane. She was over joyed to tell me that all went well and he was free of any infections. : ) Ordering 4 more Manna Gold Sachet to make sure all continues going in the right direction.

January 28, 2024

Dear Thomas A very good morning to you.

Hope all is well with you. You are right, it is for my brother. He has started taking it and I may get more as more people are seeing the result of it. I am a living prime example of this super food. Therefore, would need it to be shipped sooner. - J

Yearly Manna Maintenance Works December 23, 2023

For the record, I started this product when it first came out. It was called "Biological Miracle" at the time, then somewhere along the way the name changed to the Antidote. So what does that make, 20 years or more? Before I started this stuff I caught a cold very easily; I spent half my life with a cold. In the 20+ years I've been taking it, I can count on one hand the times I've a caught minor bug of some kind, and I've never been really sick with anything. It just works, and as long as it's available I'll keep taking it. I'm a true believer, to say the least.

I take one Manna on October 1 to be ready for the winter, and another on April 1 each year. Manna works, and I would scream it from the rooftops if I could.

Thanks for everything Thomas, and here's wishing you and yours a very Merry Christmas and a happy and prosperous new year.

Larry

People Keep Coming Back For More. November 15, 2023

Email: BM\*\*\*@gmail.com

Message: Just checking to see if y'all were still in business.

We tried the manna gold years ago with success.

Since Billy's email of October 18 2023, he has ordered for himself and a number of family members.

Thanks Billy! Glad you found us again!

50% Chance to Live November 10, 2023

Recently my daughter contacted me about a man in Calgary who had kidney failure due to growths and shrinking tubes. He was given a 50% chance of survival of an operation. -- She sent him 2 Manna to be taken before and after surgery. -- His doctors estimated he would be 2 weeks in the hospital. -- He was sent home after one week as he was healing faster than expected.

After Heart Surgery

February 23, 2023

Caleb a friend of mine had a friend who went in for heart surgery. His friend was not doing well. -- I gave Caleb 2 Manna as he was going to visit him in the hospital. -- They had a chat and Caleb showed him how to make the Manna Tea. His friend used one that day and one a few days later. --- A few weeks later his doctor said he could not believe how quickly and well he was healing. --- One more encouraging report.

Dave's Experience

November 19, 2022

Recently Dave replied to my note confirming his order. In that note I wrote, " I hope you find that Manna helps you as so many others have over the years."

His short reply was delightful to hear as not everyone shares their experiences. This is what Dave wrote!

Dave R Nov 8, 2022, 8:47 PM

I have never been disappointed! Thank You!

Dave's reply meant a lot to me and is an encouragement to see if we can make Manna available to everyone. Soon we hope that Manna will be made available to everyone across the globe, through an affordable health care

system, that everyone can afford. So thank you Dave for being part of this great adventure to heal our world. A journey of a 1000 miles begins with the first step.

Until we get there, please walk with us by sharing your Manna experiences.  
Thomas

From Mike August 12, 2022

Hello, reaching out to let you know i had a sachet i saved for when i caught covid. I wish i took it as soon as I tested positive, but today was day 3. For last three days my oxygen was hovering around 95 and my heart rate was 95bpm but i know from my fitbit and wearing a holter about two months ago my resting heart is about 60, so i was very aware of the constant high heart rate. I had a fever of about 102, aching body, some chest and nasal congestion. I went to dr and was given an inhaler and an antiviral. I did not like what i read about the antiviral and how it caused the virus to get replication errors because if it can do this to the virus- how do i know it doesnt do this to my own dna? Anyway- about 6 hours after my dose and resting my fever came down and my heart rate dropped down to the high 60s low 70s. I know it can take more time for the sachet to work, maybe its a coincidence, but i feel like it made a huge difference. I guess tomorrow will be the real test but i was a little concerned about my heart because i have ventricular hypertrophy and an atrial septal aneurysm. Seeing my heart rate come down close to normal was very reassuring. I guess my question i am wondering is how does a synthetic amino acid work to fight viruses/bacteria in the body? While i feel like it works and this is probably the 3rd or 4th i have used in last 10-15 years,  
Thanks!

To simply answer Mikes question. Manna Gold is a combination of two small amino acid changes, which is what makes Manna Gold a dual peptide combin-

ation. Designed specifically to support the immune system and heal cell tissue at the same time. There are over 300,000 potential peptides with about 7,000 discovered so far. Peptides are very very very specific in their function. Like one may help a kidney cell. One may help a heart cell. One may help remove radiation from the body. Another may help build muscle tissue. However to find those peptides that can do a specific job takes a lot of research and development. Manna Gold went through that process over 20 years ago and we are still learning what it can do by peoples testimonies.

### Almost a Miracle

June 1, 2021

I felt I should share with you some information I received from a health practitioner not long ago. Her son is autistic and she has found Manna to be very helpful.

I use Manna for years, but never could clearly understand the mechanism of action. Usually we use a lot of therapies for autistic kids, I was more concentrated on the dietary intervention, supplement, different antimicrobial therapies, chelation. I know about the damage of immune system of autistic kids. I consulted hundreds of parents during last 15+ years, only few of autistic kids were never vaxd. I used Manna for my own child since 2011 when he created very bad tantrum (self damaging behavior, scratching of others) after micro-current treatment. I tried everything what I could imaging but nothing worked. I started his first Manna course and he become great child after very first dose. He developed high fever, he was very weak, he slept few hours during daytime (very unusual for him) and his tantrum disappeared. At that time it was very clear: Manna helped him. After it I started to use Manna regular 3 times/year. Again, we used a lot of others therapies. I saw some improvement in different areas after every course, but it was not the only therapy. After 6

years I stopped to use Manna on the regular basis for him. Once in 1.5-2 years he developed very aggressive behavior (the main component is scratching, he can scratch himself and/or someone near him), I tried different treatments, but only after Manna he stopped this distractive behavior. Mar 21 2021 he developed this problem again, for 10 days I tried everything. Only when I found Manna which I didn't use last year, his problems disappear. I was very busy with my exams and relocation, everything was very clear and looked very similar to our first experience: my child become very weak, he created some fever, slept during daytime. After it he became very nice child without very dangers behavior. He almost killed me this time, he is not small anymore, he is 20 years old. He created problems after vax but he also was diagnosed with Lyme in 2008. I never saw any die off effect after Manna, I fill like it does something with immune modulation. I may be wrong, it's just my subjective feeling. I will try to collect more information, but I am going to use it as a part of treatment plan, not as a single therapy. I am also going to encourage people to use Manna. You are absolutely right. We are going to deal with huge level of people with autoimmune problems.

Another note:

Thanks for the info! I explored so many different options over the last 18 years, but I can't compare anything with Manna. It looks like a miracle.

Ela

July 30, 2020

From Janet:

Manna has brought me back to life. I had become weak and very tired. 2 days after taking Manna I was cleaning my boat while anchored in the middle of the 420 acre lake I live on. I have been taking Manna every 3 months since then, and I am living life to the fullest. Manna is a naturally made healer that works for all, including my dog. Thanks to Manna I feel like a younger, more

vibrant lady, keeping up with life.

July 26, 2020

mickey

I want to tell you that my cousin and his mother are free from COVID-19. Using the manna now they are 100 % fine.

Help for smokers.

July 24, 2020

Hello Thomas, it worked miracles for my lungs and heart. For years I had serious health issues with my lungs and breathing while sleeping from all the years of smoking. All of that went away in just a few days.

I am also going to be ordering more this week.

Thank you for this miracle product.

Carlos

Long time user of Manna.

July 7, 2020

Thank you so much for thinking of me- yes, I've been taking it for 15+ yrs, I buy it for me, my kids, grandkids, and always like to have it handy- I DO recommend it to many people every week- especially at this time- and will absolutely continue to order- thank you! D.

Amazing!

A bar tender named Charlie from New York told me over the phone around 2013, that he had suffered from Lyme disease and was getting very tired. That would have been around about 2003. After hesitating to take it, and waiting about three months, he took the few drops in the bottle. He just had to use it. He felt he had nothing to lose. He was so desperate, as his symptoms were getting worse, and he was tired all the time. He then told me,

his health rapidly improved. His Mother, who was 85 at the time, was in the hospital with a flesh eating disease, and was not expected to live, so he gave her the manna he had left. In three days she was out of the hospital. Then he said, she is now 95 and touring Europe.

Jim Giving Thanks!

March 29, 2020

Just want to thank for what you do for us all. even the helpful hints in the letters you send with it. Xylitol for instance and ect.you have saved me twice now..let alone many other benefits.true affordable medicine!! how unreal in this world. with love and respect Jim

Still Here!

March 23, 2020

Thank You , I did use Your product many years Ago And Did a search online and finally found your website again, So Happy that you are still Helping People!

Thanks Again

John R.

Happy Camper!

February 29, 2020

Nick E. <nicke@>

Thomas,

I will be ordering the manna sachet. I've ordered it in the past and taken it more than a dozen times and it's worked for everything.

I very much appreciate your timely emails.

sincerely

Nick

Thank You Franco!

February 29, 2020

Franco B.

Wow thanks, I really would love some protocols and information i can follow to shield myself and family as much as possible!! WHEN real people speak, I pay attention! I actually am extremely grateful to you for all the good you do for the world and me.

Does Manna Prevent Hair Loss?

January 5, 2020

We received word from a Manna user, that a woman who had cancer and took Chemo in 2015, did not loose her hair, by using Manna before and after treatment. Should someone you know, taking Manna, experience a similar result, would you please share this news with us and any other encouraging results.

Thomas

Brewster 13 1/2 yr. old mastiff

July 21, 2017

Update on my 13 1/2 yr. old mastiff that was diagnosed with stomach cancer on March 7, 2017. Started double dosing him [ Brewster] the following day with the manna that I had in reserve at home. The 3rd day after giving him the manna, the coughing, gagging and vomiting stopped. His progress has been AMAZING! Changed his diet to home cooked meals using only fresh natural and organic meats, veggies and fruits, plus distilled water for drinking. supplemented his diet with vitamins, minerals, crystallized vitamin c, and Re Juv a wafers all made for dogs. Brewster just continued to improve each day . Continued this regime for 4 months now. Took him back to the vet on July 3rd because I wanted to have more blood work and x-rays of his lungs, abdomen,

liver taken. I just knew in my heart that he was well. When all tests were finished, the vet could not explain what happened, but told us that Brewster DID NOT have cancer anymore and said whatever you are doing for him to keep it up. Your thoughts Thomas? Thank You for always being there. I am going to continue giving Brewster the manna, but cutting back to 1 manna sachet a week for a few months, just to be safe and keep it in his system.

\_\_\_\_\_ Sandy

Thank you Sandy for your report. Most likely the Manna Gold peptides kicked in Brewsters Immune system to attack the cancer cells, while the combination of peptides worked to restore tissue damaged in his body. Glad to hear of his amazing results.

Anna's Testimony

April 23, 2017

Dear Mr. Thomas,

We got the results for the Hepatitis B and Hepatitis C viral load counts:

Hepatitis B 207 000 copies/ml

Hepatitis C - not detected

however there was a large viral load of Hepatitis C the last time the test was done. This means that the peptide worked? After all Kevin Trudeau's book listed the protein peptide as a cure for Hepatitis C and did not claim anything for B - however I cannot say how grateful I am - and we have only used one sachet thus far! God bless you for this miracle! We will keep trying with more sachets for the B virus.

You can use this as a testimony

Health Improvements

June 12, 2015

Over the last few years many people have used Manna Gold Sachet. There are many testimonies about it's benefits. Today, I would like to mention Manna's long term effects.

A number of people who began using Manna as a last ditch effort to save their life, have regained health from HIV, liver cancer, severe upper respiratory conditions and severe viral infections, to mention a few. They continue to live a better quality of life and are still with us.

Recently we have had a number of referrals from different doctors, who have patients they cannot help and have recommended Manna.

For those who have begun to travel this path, mercy has been extended, and a measure of peace has been restored to their life and for some, their ability to contribute to society has been regained.

I thank those who have taken the time to share their experiences from using Manna and telling me about the renewed health they have gained.

Blessings

Thomas

Manna & Chemo

December 6, 2014

About two years ago Andy got some Manna for his Mother In Law. She was going to take Chemo and wanted to take Manna to help support her immune system. Only recently Andy told me, that she had taken both Manna and Chemo and felt it was time for more. When I asked how she did, taking Manna before Chemo, he told me that what surprised her most, was that she did not loose her hair.

If any Manna users experience the same benefit, this would be good to know. Please share so we can pass this information on to other Manna users, who will be taking Chemo for Cancer.

May we all be in health!

Thomas

Relief From Numb Feet.

December 3, 2012

Since I started taking Manna Gold The numbness in my feet has gone away, I have a cancerous growth on my hand that has started to dissapear. I gave 1 sachet to my Granddaughter, who has been suffering with a cold and congestion since September. She has tried three different rounds of antibiotics. When she took the 1 sachet for three days, her cold was gone. Just thought you would like to hear the wonderful power of Manna Gold.

Loreen

Recovering Fast.

November 19, 2012

Thomas, Good Afternoon!!

I guess I should tell you that when I first started taking MannaSachet about a year ago I ran out of money and just recently started again. When first starting the first thing I noticed was that after a couple of months all my warts (I had hundreds) began to disappear and finally they had all died off and fell off my skin. The planters warts on my hands and fingers took the longest to die off, but they did.

Six years ago I was twice diagnosed with a skin pigmentation disease on my right shin which reportedly is "incurable" by the medical society. MannaSachet is killing off this "incurable" disease. It has been a slow process since the disease seems to go much deeper than the depth of the skin itself. I also had three precancerous spots on my scalp after having 20 spots removed. I was told to wear a hat in the sun, but I find it hard to wear hats so these three others were a new batch coming on. After three weeks of restarting the MannaSachet these three spots are gone.

Six months ago I had five vertebrae in my neck fused and the healing is going faster than anticipated. I have been able to do controlled workouts on my BowFlex. Though I can only work with a maximum of two hundred pounds (my neck is still healing) I am gaining muscle mass very quickly and could go on for hours and never seem to get sore muscles or tired. I feel that the protein peptides in MannaSachet give us an added amount of inherent strength. Could be all in my head, but I surely am gaining strength at a rapid rate.

There are a lot of other small healings I've gone through by using MannaSachet, but I can not even remember all of them.

So am I not only blessed to have found this product, but I feel it will also heal

my liver by killing off the Hepatitis C and Full Siroccos I am dealing with. I also look forward to introducing this product to others.

Best regards,

Don

Gall Bladder Cleanse.

October 13, 2012

On Thu, Sep 27, 2012 at 2:26 PM, E wrote:

Did the cleanse and tons of green pebbles came out. The cleanse really does work. I am feeling good and healthy once again Mr.Hobson me and my wife are going to a local shelter to barbeque for homeless people today.

Hope you are enjoying the beginning of autumn!

Peace & blessings

E

Hi Thomas,

Thanks for your quick reply. If you could, just send me the sachet. I have been using them for several years and really believe they help keep me in good health so I like to keep them on hand. Thanks again and have a great evening and week.

Charles B.

Long time user of Manna Gold!

August 21, 2012

Sent: Monday, August 20, 2012 3:46 PM

Subject: Update

Dr Shah and team

Hi its Robert Bonaccolta just updating everyone on my own health.  
After 2 1/2 years+ now, since I took 8 satchets. I'm very healthy, not even ever had a cold, cough nor fever. I feel great and I wish people even knew how important my own use was as I became, under no other powers but my own, my own lab monkey testing myself.

If you only knew how I felt worried about what this stuff even was.

I'm fine, I'm alive, I'm very healthy.

Also....my grandmother with Alzheimer's is still alive, not well, but she won't die. She even broke her hip and at 85 years old, she healed and walked again in 3 weeks. The doctor said she's on her last year of the sickness and should have been gone a year ago.

My dad is amazingly still OK with diabetes, heart issues, cancer is 100% gone and he from last year was a walking time bomb. He will live.

Not everyone has the guts to take an unknown substance from a website and test it like I have.

I've had the hardest time ever trying to help others. They all believe in modern medicine. No guts to believe!!! I believe!!!! I'm a doer!!!

I gave up on everyone out there. It is a terrible feeling too.

To all the believers, and dreamers... get healthy!!

Thank you

Robert B.

An Email from E about HIV

August 10, 2012

Hello thomas my cd4 count came today, according to my doctor the average human has a cd4 count of 800- 1000 my cd4 count after NOT taking my hiv

medicine for 6 months and after taking 4 x3 manna sachets is 756 this is the highest its ever been I have never had a count this high before taking the manna it was 483 the manna sachet WORKED! It might have not worked on my wife the only thing different we did was I did a full body cleanse before taking the manna, she did not. I suggest you tell your hiv positive clients to do a full body cleanse before taking the liquid manna for full integration. I will be ordering 4 manna for my wife in august after I make her do a full body cleanse. Thanks for changing my life thomas, you are an angel sent from the heavens.

E.

Email From Wanda

June 11, 2012

Thomas I do have a few questions, which I hope you might be able to reply.

The story of how I knew about Manna Sachet – is from the original “Biological Miracles” website back in 2003-2004 – from when Elliot Borges (from Puerto Rico) was their not only distributor, but also a very strong testimonial – to say the least... from the original days...I work in technical sales – nothing related or close to nutritional products, but I know lots of people and thru the years I have recommended and given Manna to a few people - the testimonials are many.

For me, it's not only critical to ensure I know where to get the Manna, but also its close to my heart, due to Elliot – whom was my dear friend and I “lived” his process and saw how passionate he was about this product.

I do not want to provide lots of information – who know who reads this... but after I knew that West is no longer available – its really worries me to loose a the way to buy Manna. I really would like to know if someone has inventory

in the US to get product faster. If you have any information, I would really appreciate if you can call me. I left all my information in my signature.

Thank you,  
Wanda I. A.

Wonderful

John's Manna Experience    April 7, 2020

Hello,

My name is John and I have been a customer for several years now. I have taken manna sachets annually (7 stretched out over 3 weeks annually) and have reaped incredible rewards. Prior to my using Manna, I would get sick with chest infections, colds, the flu, etc at a minimum 4-6 times a year. After using manna sachet I get sick MAYBE once a year, and usually it signals that it's been a year (almost to the date) since I used the sachets. Recently due to financial constraints and moving parts in my life, I have been off of Manna for almost 2 years. I noticed the effects immediately. I was sick 3-4

times in the last 9 months, unheard of when i was using the sachets. I have just received my 7-pack and am excited to get healthy again.

You can read more recent reports in our blog.

Please note, Manna was originally shipped in a liquid form and now is in a dried sachet for longer shelf life. Estimate 10 years shelf life when kept in a cool dry dark place.

May 5, 2004

Dear Sirs,

Attached are the results from the Protocol (Clinical Trials) that we performed with the product over the last month donated by manufacturer to the Institution. Carlos E. Dominguez Miranda, MD presented the product to the consideration of the Ryan White Board of Directors. I have been invited by the Ryan White Planning Council to present in detail this product. Depending on the outcome, they are considering including it in the therapies covered by the Institution. This way it will become available to low income patients. I have also been approached by members of the San Juan Chapter to present the product.

We need to know details for distributorship of the product to include in yearly budget. Health professionals were also included in the Protocol (Clinical Trials), which adds credibility to the results as they are very skeptical and could not dispute the results the product had on them.

Expecting to hear from you soon, I remain

Respectfully yours,

Elliot (Puerto Rico)

Dear Michael,

Thank you!!! Thank you!!! God bless you all for all the good work!!

Here is my progress report.

Liquid Manna is what they have renamed it in the U.S.

I want to preface my following testimonial by stating that for 20 years I chose natural healing processes and tried everything you can imagine.

I found that pain killers altered my mind and that I would lose myself mentally when I did try. I felt that to sustain my life and make it bearable I had to take medications. I have been taking daily 6mg. Lorazepam during the day and 30mg. Temazepam at night, Biaxin 2000mg. and heparin by injection 3 times, along with a slew of natural products to build the immune system and fight off the damage of taking prescription drugs. I was told by my doctor to try anything as I could die anytime. A cold or flu could easily take me.

I do not remember feeling well as a child. I had headaches and insomnia. I had severe allergies and asthma with recurring strep throat.

I had difficulty concentrating. I have a history of seizures, staring at age 15. I am now 42 years old. My right side was frequently paralyzed; my face, arm and leg. My head was constantly being pulled down by the esophagus, where a scab or growth connecting into my inner ear had formed. My throat had collapsed on the right side. I had a severe sinus infection and lung infection. I also had a history of miscarriages and ovarian cysts. I ran a constant fever, was lightheaded and unstable. My skin had hardened and was covered by infection. Last year, I bled rectally innumerable times. I had constant diarrhea. I also suffered from distal open esophageal valve and hiatal hernia. I had ulcers in the esophagus and both internal and external hemorrhoids that bled

regularly. On top of all that I had sleep disorder (sleeping only about 4 hours per day for some 5 years) and both long term and short term memory loss. Additionally, I had frequent mood swings and panic attacks. I have been housebound for 4 years. My pain was 10+ .

Today, I have no paralysis anywhere. The disease that connected my internal tissue has broken away. I can move my head freely and have no pain in my right ear. My throat is no longer collapsed. I have slept the days away. I have no panic attacks. My mood swings and my memory have improved. My fever has improved. I feel happiness again and my sense of humor has returned. I have 90% less pain. I have no sinus infection left and my lungs seem to be continuing to heal. Allergies have disappeared. I have had quite a lot of drainage vaginally-consistent with previous bursting of ovarian cyst fluid. External hemorrhoids have cleared.

It has been a few days since I stopped taking your product. It is still working in my system. I feel tired and I believe my body is still in recovery mode, but I do feel the improvement day by day.

I am going to LIVE!!! Thanks to this Liquid Gold!!!

There is no way to thank you enough!!!

Shelly

Early on Manna was called the Antidote and came in a liquid form. Later the name was changed to Manna and packaged in a sachet as it was more convenient to ship and stored much longer.

Dear sirs,

I got sick in India in 1989 and it never really could be diagnosed although experts thought it was either a retro-virus, parasite or weird bacteria. Still not well but making good progress now.

Is it possible for you to rush ship me two more bottles of the product just as you did with the first bottle two weeks ago as the first bottle has begun to turn around a 14 year long illness that nothing else has helped. I am back on my feet and my doctor wants me to take two more asap. If you can, I am deeply grateful.

Best Wishes,

Jed Scott Swift

Ohio, USA

Email

Thank you for the product. It truly does work miracles. When I received my one vial, I not only checked myself but others. All balanced, including my Parkinson's disease. I give thanks for your work.

Best regards,

Ruth F. Clark

Texas, USA

Email

In 1990 I was diagnosed with Parkinson's disease. Mainly I have been able to control these illnesses with Computerized Electro Dermal Screening (CEDS), vitamins and a variety of treatments from Dr. Linda Martin, DO (alternative medicine). Neuro Cranial Restructuring has been very helpful (check the in-

ternet under Dr. Dean Howell [www.drdeanhowell.com](http://www.drdeanhowell.com)).

Yesterday after Dr. Martin checked me and herself on CEDS I took the product I also I tested 4 other reliable persons and they balanced. Today I have taken no remedies for allergies, biological's, pathogens, Parkinson's or thyroid. And my tests are normal. I will continue to monitor my system, but I am very optimistic. In fact after my long struggle to live, I feel now that after discovering the product all of us are capable of being healthy and not with pharmaceutical drugs.

Best regards,

Email 3:

The product has done its work with parasites, polarity, biological warfare, viruses, bacteria, Candida and even Parkinson's disease. My guess is that these organs are still being bombarded with Geopathic Stress, Inversion Air and Atmospheric conditions, so they need a boost with alternative medicine to achieve a more normal function. Hopefully my immune system will improve. But I am not complaining. Having all the free radicals under control is amazing to me.

Tomorrow I plan to order three more of the product, one for a friend and the other two for me to keep in my refrigerator to test others as the word spreads. Again I must comment that testing with CEDS (Computerized Electro Dermal Screening) is proof that the product works. Otherwise I would not be able to furnish on site proof of success.

Best regards,

Hello Thomas,

I just came back to the US after a very joyful stay in Kenya doing my graduate research work. I also had enough time to spend with my extended family and friends something I had missed dearly.

I am glad to let you know that my friend is doing well. Still on medication for HIV and although she hasn't been able to get all the good things you had recommended, she remains hopeful that things will work out.

Honestly I can't thank you enough for opening up a new world to me, that probably would never have known about. I am now a firm believer in holistic approach to health. I eat well and I feel good, that sluggish feeling is long gone and I am slowly losing some extra pounds I had long attributed to babies and had resigned myself to living with.

God bless,

Mercy
